Overview

I am a hardworking professional seeking to apply my management and problem-solving skills to dynamic and engaging environments. During my previous employment, I learned the necessary skills to perform in labor-intensive and chaotic environments. I excelled at learning processes quickly in order to perform my duties effectively and efficiently. In these positions I utilized and improved upon my capacity to work with a team, as an individual, with clients and customers, and with multiple independent contracted teams. I have excellent reasoning and verbal/oral communication skills as a result of my education in philosophy. I have also spent considerable time developing the necessary technical skills to perform competently in a technical environment, including building and maintaining computer hardware, building a Linux-based server infrastructure, and studying/implementing software architecture principles through code.

Work History

Air Force Academy Association of Graduates / IT Intern

MARCH 2026 - PRESENT, COLORADO SPRINGS, CO

Assisted small organization IT team in performing day to day duties and managing operations. Learned the fundamentals of IT Help Desk practice. Gained familiarity with a Microsoft infrastructure based production environment. Assisted employees in resolving a wide range of technical issues. Helped to design system architecture and problem-solve through existing architectural challenges.

Goodwin Knight / Assistant Construction Manager

JANUARY 2024 - JANUARY 2025, COLORADO SPRINGS, CO

Worked as assistant to several construction site supervisors. Organized and managed tradesmen work schedules using project management tools such as BuilderTrend. Coordinated with trade foremen to outline and clarify scopes of work. Organized inspections with the Pikes Peak Regional Building Department and worked to ensure inspections passed. Developed working relationships with many of the trades on site. Resolve

Certifications

CompTia A+

numerous issues outside of contracted scopes of work when necessary. Resolved numerous unexpected site complications which would otherwise delay projects.

Aspen View Homes / Field Technician

JULY 2020 - AUGUST 2021, WIDEFIELD, CO

Worked as a field technician to oversee and maintain a quality home building process. Quickly learned the steps and phases of the construction process in order to better optimize personal workflow. Worked autonomously to complete several different tasks under multiple time constraints. Routinely worked fifty hours per week in order to ensure tasks completed on schedule. Learned the proper operation of a wide variety of tools, as well as the proper installation of various trade specific materials. Routinely performed labor-intensive tasks.

Awards

AP National Scholar

Eagle Scout Award

NCA National Champion

Other Experience

President, Treasurer, and Founder

Warhammer Buffs

SEPT 2022 - DEC 2023, CU BOULDER

Founded Warhammer Buffs at the University of Colorado-Boulder. Organized monthly and weekly events. Requisitioned and managed funds through the University in order to acquire materials and equipment from various vendors. Handled administrative responsibilities pertaining to yearly budgeting and financial reporting. Networked with other gaming clubs to increase interest and membership participation. Grew the club from 12 to 80 registered members over the span of one year through university outreach events and coordination with the interested student body.

Eagle Scout

Boy Scouts of America

SEPTEMBER 2019

Completed a volunteer Eagle Scout Project over the course of 9 months following 4 years of work for advancement. Coordinated with a liaison from a local charity to finance and execute a construction project to the organization's specifications. Organized the labor of 10+ volunteers, as well as the proper sequencing of material shipments and specialist labor. Drafted and submitted a detailed and lengthy application detailing my achievements in Scouting, and was accepted to the National Eagle Scout Association.
